

DRAWING 1 · FOUR-TIER DEPLOYMENT TOPOLOGY

HTTPS / mTLS

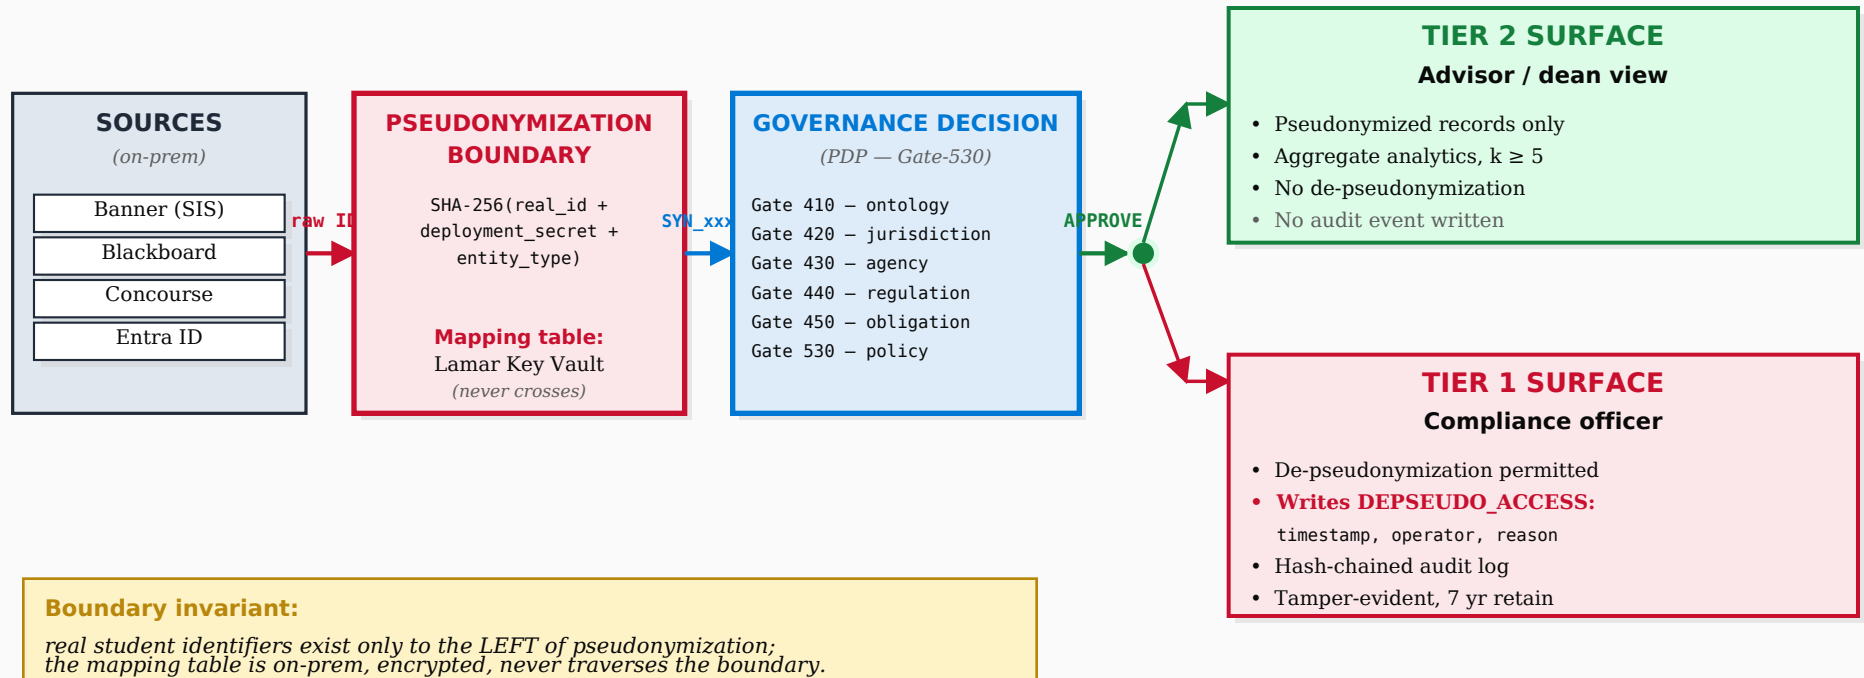

LAMAR PERIMETER

ANCHOR PHRASE

"The only inbound from the internet is the signed-bundle endpoint. That's it."

DRAWING 2 · FERPA BOUNDARY BY ARCHITECTURE

ANCHOR PHRASE

"This is not a policy. This is architecture. The system cannot leak what it does not possess."

DRAW ORDER

1. Sources on far left (Banner, Blackboard, Concourse, Entra ID).
2. Vertical bar labeled PSEUDONYMIZATION BOUNDARY in cardinal.
3. PDP box with six gates listed (write them all out — Sri counts them).
4. Branch up to Tier 2 (advisor view); branch down to Tier 1 (compliance officer).
5. Annotate the down-branch: "DEPSEUDO_ACCESS event — timestamp + operator + justification."
6. Drop the anchor phrase as soon as the pseudonymization boundary is drawn.
